INTRODUCTION

Anyone can do it!

Congratulation! Here is the first step to start selling sports cards on the web! It doesn't matter if you have a small collection or million of cards. This is a passion and why not making a little money with it? For non experienced user, you can expect to complete this in around 15 minutes or 30 minutes if you take your time.

if you have question, feel free to contact us at support@kronozio.com

CHAPTER ONE

REGISTER ON KRONOZIO

Account creation

First, you will need to create a free account on www.kronozio.com/register

The registration process is pretty standard, so I will not take you a step by step. Don't forget that like most of the registration process you will receive a confirmation email. In some cases, it is possible that you will not find it in your inbox, because of the rigidity of your SPAM filter. Take a look in your SPAM or JUNK folder for an email from Kronozio. If all this doesn't work, please send us an email at support@kronozio.com and we will resolve the issue for you.

We also build a short video that show the complete process.

<https://vimeo.com/kronozio/register>

The screenshot shows the Kronozio website's registration page. At the top, there is a navigation bar with the Kronozio logo, a search bar, and links for Login, Register, Support, and a language dropdown set to 'en'. The main heading is 'Creating a Kronozio account'. Below this, there are several input fields: 'First name', 'Last name', 'Username' (pre-filled with 'Kronozio Support'), 'Email', 'Password' (masked with dots), and 'Password (Confirm)'. There are also radio buttons for 'Language for emails' with 'French' and 'English' options. A checkbox labeled 'Did you hear about us from one of our affiliate' is present. At the bottom, there is a small text block with terms and conditions, followed by a large orange button with a checkmark and the text 'Here we go!'.

CHAPTER ONE

SETUP YOUR KRONOZIO STORE WITH KRONOCARD

Installing the magical software

Ok now that you have created your free account on Kronozio.com it's time to download and install the software. We named the software Kronocard. It is lightweight, fast and very powerful. Go to <http://support.kronozio.com/> to download it and install it. Don't worry, it is free of spyware, virus, etc.

Again, we also have a short video to show you how to do it.

CHAPTER ONE

CHOOSING A VALIDE NAME AND RESERVE IT

The internet rules

The website name on the internet like Kronozio.com are called domain name. So every time that we will talk about domain name we are referring to a name .com .ca .net .org

Now, you need to find your domain name, but before starting you need to know that there are rules for those domain name.

- You can't choose a name longer than 63 characters.
- It can contain only letter (a-z) – numbers (0-9) – hyphen (-).
- Domain name doesn't care about upper and lower case.
- It can't start or end with the hyphen (-).
- It can start with a number but it's not recommended.

There is another unwritten rule... To stay away of trouble

Please try to find a name that is not too similar of someone else domain name.

I have a idea how I can validate it?

The fastest way to know if your name is valid and available is to go search for it here: <https://instantdomainsearch.com/>

INSTANT DOMAIN SEARCH Aftermarket gTLDs About FAQ Articles

Type here to search for a domain name Search

Start typing in the search box and it will instantly search if this is available! As soon as the box goes green you are good use it. The search will always try to find a .COM first, because this is more suitable to have a .COM. If the .COM is not available it will suggest other dot something. As I said in the previous page don't use a name too close to similar to someone else. If the only difference is the dot something you can be in trouble latter.

Now that you found an available name you need to do the final validation. This site search engine is quick, it is not guarantee that it's still available, so you need to confirm with a valid registration authority.

If after a couple of hours your are unable to find something interesting, I listed a couple of web site that have interesting way of finding domain name

- <http://www.namemesh.com/>
- <http://wordoid.com/>
- <http://www.leandomainsearch.com/>
- <http://www.bustaname.com/>

CHAPTER ONE

REGISTER MY DOMAIN NAME

Buying the name

For sure it will look more professional with your own .COM domain name to visit your online store on Kronozio. Buying a domain name usually costs less than \$15 per year and have a considerable impact on your sell!!!

You can buy your .COM name at different places on the web, but the feature that allow you to link with the site Kronozio are not supported by everyone.

For example, I used one of the largest and more secure domain name supplier on the web and they supports what we want to do.

Go to www.godaddy.com

This search box is where you type the name you founded to be sure that it is still available as said before.

Once you found your name is still available.

YES! YOUR DOMAIN IS AVAILABLE. BUY IT BEFORE SOMEONE ELSE DOES.

It's now time to clique on

The internet rules

Once selected it now show you this.
Click on the orange button.

DOES.

Now the next page wants to sell you lots of options that you probably do not need. Click on

Then it's time to pay your new name and if needed create an account with Godaddy. Choose the right Term in my example 1 year and press
